

Meal Plan

Thick & Fit Fitness

Introduction

Dear Shelise,

Here are some recommendations for a healthy eating plan based on the information you have provided. This takes into account your preferences and lifestyle, to help you successfully achieve your goal of getting a healthier lifestyle.

This meal plan consists of a number of recipes divided into suggested meal times. You are welcome to freely choose between these meals, or just select a few that you enjoy. In addition, you can find some tips below to help you adhere to your plan.

Please note that this meal plan only serves as a suggestion of healthy eating patterns and is not intended to replace dietary counseling from a dietitian, nutritionist, or medical professional. Use of all meal plans is at your own risk. You should always carefully review the contents of your meal plan for anything that you may be allergic or intolerant to. Following a meal plan does not guarantee any particular health outcome, including weight loss. If you have specific questions about your health or your individual nutrient needs, please consult your medical provider, especially if you are being treated for a medical condition.

Enjoy these recipes and if you have any questions about this plan, please don't hesitate to reach out.

All the best!

Yours sincerely,

Thick & Fit

Meal plan structure and scientific background

Based on the information you have provided, your total daily energy intake and recommended macronutrient distribution (protein, carbohydrate, and fat) have been calculated. These recommendations are based on well-established and widely accepted academic principles including [Basal Metabolic Rate](#) (BMR), Total Daily Energy Expenditure that incorporates BMR and daily [activity level](#), and recommended [macronutrient](#) distributions.

As you want to achieve a healthier lifestyle, your recommended macronutrient distribution is as follows:

Macronutrient distribution:

Daily energy intake	Protein	Carbohydrate	Fat
2200 kcal	33%	40%	28%

Daily intake:

- Breakfast - 530 kcal
- snack - 310 kcal
- Lunch - 575 kcal
- Snack - 210 kcal
- Dinner - 580 kcal

Taking into account the energy density of each macronutrient - 4.1 calories in one gram of carbohydrate, 4.1 calories in one gram of protein, and 8.8 calories in one gram of fat - it is recommended to consume approximately 174 grams of protein, approximately 212 grams of carbs and approximately 70 grams of fat per day. These recommendations form the basis for the recipes in your meal plan.

Tips to help you succeed

Weighing ingredients

It's important to note that all ingredient quantities in the recipes are described in raw weight, unless otherwise stated. Therefore if you want to weigh ingredients, measure them before cooking when you can. Make sure to only weigh the part of the food that you're actually going to eat.

Herbs, spices, and similar ingredients

Spices and flavoring are included in many recipes and are intended to provide extra flavor to your dishes and make them more enjoyable. If you dislike any flavoring or spices, feel free to replace or omit them from your meals. If you have any allergies or specific dietary preferences, be diligent when reading labels as some spice mixes and sauces may contain various allergens or additives.

Meal preparation for multiple portions

Preparing meals in larger quantities can reduce your time spent in the kitchen. Multiply the recipe's ingredient amounts by the number of meals you want to consume, and season it to your liking. After preparation, try to evenly portion the food into the number of meals you need. Store the meals in tupperware in the fridge if it is to be consumed within a few days. Otherwise, store the tupperware in the freezer for later consumption. Keep in mind that certain foods (e.g. cold pasta salads, sandwiches) are better kept in the fridge than frozen for later.

Sustainability

Preparing meals in larger portions can also be a useful tool in preventing food waste. Try using as much of the whole ingredient as possible and aim to buy local and seasonal ingredients where possible. It can also be advantageous to prioritize recipes in your meal plan based on what you have already available at home. For ingredients you don't have readily available, here is a [guide](#) that you can use to swap ingredients that have a similar macronutrient profile.

Staying on track

It is recommended that you follow the recipes as they are written to the best of your ability since they are designed to help you achieve your goals. With experimentation, you will be able to find the eating pattern that works for your schedule and body. Some people notice that spreading their meals evenly throughout the day helps them maintain energy levels, while others prefer eating larger meals less frequently. Feel free to be flexible with your meal structure, there is nothing wrong with e.g. eating a breakfast meal in the evening, if this suits you and your time best. From a purely physiological perspective, it's what you eat on a weekly basis that determines your results, not what you eat on a meal to meal basis.

More information on dietary recommendations

BREAKFAST

Pick one meal from this category every day. You are free to choose!

Baked tomato, egg white
and cheese English
muffin

15 min. 10 min. | Kcal: 528

- 80g - Cherry tomatoes
- 125g - Whole wheat English muffin
- 25g - Green onion/scallion
- 5g - Olive oil
- 40g - Cheese, cheddar or jack, reduced fat
- 150g - Egg white, pasteurized

Protein: 38 g Carbs: 51 g Fat: 19 g

1. Preheat the oven to 450°F (convection).
2. Slice the English muffins in half and toast until golden. Place on a lined baking sheet.
3. Rinse the scallions and tomatoes. Finely chop the scallions and cut the tomatoes in half. Shred the cheese and whisk the egg whites.
4. Bring a frying pan to a medium heat with the oil and fry half of the scallions for approximately 2–3 minutes. Add the egg whites, season with salt and pepper, and cook while stirring until the egg white has set. Remove the pan from the heat.
5. Layer the English muffins with the scrambled egg whites, shredded cheese and tomatoes. Heat in the the oven for about 1–2 minutes, or until the cheese has melted.
6. Serve the English muffins on a plate, top with the remaining scallions, and enjoy!

P 10 min. | Kcal: 528

Protein: **39 g**

Carbs: **51 g**

Fat: **18 g**

20g - Oreo cookies, mini, original

195g - Total 5%, Plain Greek Yogurt, Fage

65g - Almond milk, plain, unsweetened

20g - Whey protein powder, flavored

45g - Oats

50g - Blueberries

There should be at least twice as much liquid as you have oats. Add more water if you want a thinner consistency. A chocolate flavored protein powder is recommended for this recipe

Note: Keep in mind this recipe must be prepared the night before and stored in the fridge for at least 4 hours.

1. Mix up half of the Oreos and the protein powder with the yogurt.

2. Add the oats to a bowl and mix together with the almond milk.

3. Start layering the oats and yogurt in a small glass. First, layer some oats, then some yogurt, then oats again. Repeat until you run out of yogurt and oats.

4. Cover and place in the fridge overnight, or for at least 4 hours, to allow the oats to soak.

5. When the oats are ready to eat, rinse the berries. Top the overnight oats with the berries and remaining Oreos. Enjoy!

SNACK

Pick one meal from this category every day. You are free to choose!

 2 min. | Kcal: 300

- 50g - Light String Mozzarella Cheese, Frigo Cheese Heads
- 150g - Blueberries
- 250g - Strawberries

Protein: 17 g Carbs: 40 g Fat: 7 g

1. wash strawberries and blueberries, bring together in a bowl with string cheese and enjoy

LUNCH

Pick one meal from this category every day. You are free to choose!

10 min. 20 min. | Kcal: 579

Protein: 45 g Carbs: 57 g Fat: 18 g

- 135g - Ground beef, 93% lean, 7% fat, cooked
- 30g - Tomato salsa
- 135g - Brown rice, any type, cooked
- 85g - Sweet whole kernel corn, canned
- 45g - Light/low fat sour cream, 9% fat
- 90g - Yellow onion
- 60g - Tomatoes
- 1-2 tsp - Taco seasoning
- 1-2 Pc. - Garlic clove, minced
- 1/2-1 Handful - Cilantro, chopped

1. Rinse the rice. Cook the rice according to the instructions on the packet in a pot of lightly salted water.
2. Drain the corn and peel and dice the onion. Fry the garlic and onion in a pan over medium-high heat until golden. Add the ground meat and corn and cook until the meat is thoroughly browned. Season with the taco spice mix.
3. Rinse and dice the tomatoes.
4. Add the rice to a bowl and top with the beef, salsa, tomatoes, sour cream, and cilantro. Enjoy!

pro tip swap out the sour cream for plain greek yogurt, feel free to add some seasoning to it but it tastes almost the same

Coconut rice with tilapia

 10 min.  25 min. | Kcal: 601

150g - Tilapia filet, without skin, cooked

105g - Coconut milk, lite (6-7% fat)

175g - Jasmine rice, cooked

40g - Avocado, fresh

10g - Raisins

2-3 Second - Cooking spray

1/2 tsp - Lime juice

Protein: **46 g**

Carbs: **60 g**

Fat: **19 g**

1. Rinse the rice before cooking. Heat a pot over high heat with the cooking spray, then add the rice, coconut milk and a pinch of salt. Boil the rice until the coconut milk has decreased at the surface and the rice is visible, then reduce the heat to low, cover and simmer for about 15 minutes. Remove from the heat and let stand for another 5 minutes.

2. Season the fish with salt and pepper. Put the tilapia in a pan over medium heat with a splash of water and sauté on both sides for a few minutes, or until it flakes apart easily with a fork.

3. Cut the avocado in half and remove the stone. Use a spoon to scoop out the flesh and slice it.

4. Serve the rice and the fish on a plate. Top the rice with raisins and the fish with avocado slices and lime juice.

SNACK

Pick one meal from this category every day. You are free to choose!

🔪 5 min. | Kcal: 133

25g - Whey protein powder, flavored
300g - Almond milk, Unsweetened Original, refrigerated, Almond Breeze

*refer to supplement
recommendations for protein
powder recommendations*

Protein: **20 g** Carbs: **2 g** Fat: **5 g**

1. mix protein powder with either water, unsweetened almond milk or fat free milk. if you blend it with ice it will give it a thicker consistency

DINNER

Pick one meal from this category every day. You are free to choose!

Slow cooker honey garlic chicken with rice

🔪 10 min. 🍲 240 min. | Kcal: 574

Protein: 44 g Carbs: 54 g Fat: 19 g

- 125g - Chicken breast, boneless and skinless, cooked
- 130g - Brown rice, any type, cooked
- 10g - Sesame seeds
- 15g - Honey
- 5g - Cornstarch
- 10g - Sesame oil
- 10g - Tomato paste

- 1-2 tbsp - Sambal oelek
- 1-3 tbsp - Soy sauce
- 1-2 tsp - Rice vinegar
- 1-3 Pc. - Garlic clove, minced

You need a slow cooker for this recipe. You can make several portions of this recipe and store them in tupperware to eat at another time

1. Add the chicken to the crockpot/slow cooker. In a bowl, whisk together the oil, soy sauce, honey, tomato paste, sambal oelek, garlic, and rice vinegar. Pour over the chicken.
2. Cover and cook on low for 4 to 5 hours, until the chicken is no longer pink in the middle.
3. Remove the chicken to a plate and let cool slightly. Whisk the cornstarch into the slow cooker cooking liquid. Cover and cook on high for 15 minutes, until the sauce thickens slightly, stirring occasionally.
4. Meanwhile, shred the chicken with a fork. Serve the chicken with the rice and sauce. Garnish with the sesame seeds. Enjoy!

 120 min.  20 min. | Kcal: 576

Protein: **43 g**

Carbs: **61 g**

Fat: **17 g**

125g - Sirloin steak, lean, cooked

15g - Honey

275g - Potato, small

10g - Olive oil

30-60 ml - Soy sauce

1/2-1 tsp - Ginger, fresh, grated

2-3 Pc. - Garlic clove, minced

1-2 tsp - Dijon mustard

You need a grill/barbecue for this recipe. Alternatively, you can cook this recipe in a pan on the stove or under the broiler in the oven

Note: the steaks need to be marinate for at least 2 hours before cooking.

- 1.** Heat the barbecue to high heat.
- 2.** Mix the olive oil, honey, ginger, garlic, mustard and soy sauce in a small bowl and combine to create a marinade.
- 3.** Season the steaks with salt and pepper and place them in a ziploc bag. Pour the marinade in the bag, seal and shake to coat the meat. Let it rest in the fridge for 2 hours.
- 4.** Wash the potatoes and cut them into bite-sized chunks. Place the potatoes in the middle of some tin foil. Season with salt, pepper, and any other spices or herbs of your choice, then wrap it up to close.
- 5.** Put the wrapped potatoes on the grill and cook for 45-60 minutes, until tender. Alternatively, you can bake them in the at 400°F (conventional) or 350°F (ventilator) for approximately 30 minutes, until soft.
- 6.** Remove the steaks from the bag and discard the excess marinade. Grill the steaks for 4 minutes, then turn over and cook for another 5 minutes or more depending on the desired doneness. Once cooked, leave to rest for at least 10 minutes before serving.
- 7.** Serve the steak with the potatoes and enjoy!
